OVERVIEW

Our Aim: Is to break the limiting belief that a disabled team would never conquer Mount Kilimanjaro... And through this, raise funds for the disabled & underprivileged to help them achieve their goals & realise their dreams in the sports arena. We will focus on development from basic competitive level up to the elite international level & Paralympics... from mentoring to better training facilities & equipment.

Motivation for accepting the challenge:

I'm climbing Kili to make a bold bold statement of how much powerful the mind is, it has always been mind over matter. Persons with disabilities possess strength beyond limits, we're bringing that to light. Personally, I've always wanted to minister to people, and i'm working towards establishing myself as a motivational speaker amongst other things, this is a platform to put my money where my mouth is. Anything is possible with will, dedication, courage, fortitude, hard work, sacrifice, faith, love and passion. TEAM NO LIMITS is comprised of amazing beings that keep me going everyday, that keep me believing in myself and courses greater than myself. I'm doing the climb to empower those that feel powerless, i'm taking it upon myself, and so is every member of the team, to reach out to the masses and make a difference in people's lives.

No Limits!

Motivation for accepting the challenge:

All our dreams can come true if we have the courage to pursue them, and do whatever you do with all your heart and soul: That is why Dis-Ability does not have no limits. Do unto others as you would like them to do unto you- the Kilimanjaro team will be raising funds for one- thousand (1 000) African children that are amputees giving them back the reason for them to live life to the fullest. Giving them back their dignity so that they can be motivated and mentoring them to their full potential. Who knows they might realise their dreams from basic competitive level to elite international superstars.

My aim is : To proof a point that if you set your mind to anything then you can get it or achieve it . Personally will be glad if I am able to raise funds for myself to be able to meet the obstacles around my sporting activities such as a personal sponsor, in order to can acquire the custom made hand-cycle, the coach to mentor me so that i can realise my dream of qualifying for the coming Olympics and representing my country at the paralympics. To promote your brand company to be recognised internationally as I will be the first African disabled wheelchair bound to climbed Mount Kilimanjaro and motiving other fellow people living with disabilities that anything is possible as I was not born disabled through your support our dreams will come through !!!!!!!!!!!!!Thatha Kilimanjaro thatha !!!!! Hola Kilimanjaro Hola!!!!
